REVEALS HEROIC ALLIED DEFENSE

Handful of Officers With 100 Natives Defeat 6,000 Egyptians.

NEW YORK, May 28.—The story of how a handful of American, British and French officers at the head of 100 native troops, fought off for three days the attacks of 6,000 Egyptian insurgents and saved the lives of 400 white women and children was told by Prof. Roy Allgood of Birmingham, Ala., who arrived here from Assuit, Egypt, a band of Senyusi Arabs advanced on the town and the allied officers quickly organized a defense and defeated the first assault. Attack after attack was made with fanatical fury. The ammunition of the besieged ran short and the situation was desperate when British seaplanes from Alexandria succeeded in dropping supplies. At the end of the third day gunboats with rescuing troops made their way up the Nile, drove off the attackers and relieved the garrison.

FARM AGENT DISPUTE RAGES OVER OUACHITA

CAMDEN, Ark., May 28. (Sp.)—For some time local newspapers have carried signed articles concerning the dispute between the farm demonstration work in Ouachita county. H. F. Kapp, district agent, contends that Judge W. F. Tate would not sign a form of contract provided by the department, and that no demonstration would be named unless this contract were properly executed. Judge Tate, in a signed statement, quotes a contract which he offered to sign as county judge, agreeing to pay \$33.33 per month from the county treasury toward the salary of the demonstrator. Judge Tate declares that the form of contract insisted on by Mr. Kapp did not meet the requirements of the agent to have charge of Ouachita county. The judge said: "I am in favor of farm demonstration, but I insist that we have efficient service, and must confess that I am a little skeptical when the management can take no responsibility for the failure of the agent to make a district agent out of him, filled with all the gospel of science, farming. The county will pay \$1,000 per year for an agent to be named by the district agent, but the contract must be a matter of record."

SIX KILLED, 20 WOUNDED IN PERUVIAN DISORDER

LIMA, Peru, May 28. (By the Associated Press.)—Six persons were killed and 20 wounded in the rioting and fighting which took place here yesterday as a consequence of the strike. Martial law has been declared in Lima and Callao. Both cities, late yesterday, were under complete control of the military and naval forces. When the general strike was declared mobs began to loot and burn. A dozen or more foodstuff establishments in Callao were attacked. Some damage was done to the business houses of druggists and company, the Peruvian corporation and other foreign business houses but it was not serious. In Lima the situation is now well in hand and the early restoration of normal conditions is expected.

FRENCH LABOR CONDEMNS PEACE TREATY SECRECY

PARIS, May 28.—The national committee of the general labor federation has passed resolutions condemning the secrecy in which the treaty of peace has been framed and protesting against the conditions imposed by an incomplete knowledge of the document. The resolutions also protest against the denial of the right of self-determination of peoples; disguised annexation; the repudiation of solemn engagements concerning the league of nations and the return to the old system of alliances; the absence of an international financial system and economic organization; and a continuation of the economic war and the failure to incorporate in the treaty a real international labor charter.

NEW HAVEN, Conn., May 28.—A mob of several hundred persons, including recently discharged soldiers and sailors, attacked the Yale university campus last night. Augmented numbers of rioters were reported as smashing windows of Yale buildings. Several students caught off the campus had been beaten. Virtually every no-man-in-the-street was mobilized into the campus area.

WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Perth Amboy, N. J.—"For three years I suffered with a severe female trouble, was nervous, had backache and a pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in my newspaper, and tried it. Now I am better, feel strong, have no pain, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound—that is what makes me feel well and look well. I recommended it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills."—Mrs. MARTHA STANISLAWSKI, 324 Penn St., Perth Amboy, N. J.

For forty years Lydia E. Pinkham's Vegetable Compound has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

Free Electric Line Proposed For All Mississippi Towns

YAZOO CITY, Miss., May 28. (Sp.)—An intricate electric line connecting every large town in Mississippi, built by the state to carry passengers without cost, maintained by taxation and operated at a cost of about one-half cent a passenger to the state, is suggested in a letter to the Yazoo City Commercial club, by W. D. Collins, formerly a traveling man in Mississippi, who says he knows every foot of the state and who is now connected with the Debridge company, makers of calculating tables, of St. Louis. It seems that Mr. Debridge, the head of the St. Louis firm, lectures on the feasibility of such a line, not only in Mississippi, but in any state or community. The city of Yazoo, Miss., has applied for a charter for such a line. The matter has been studied by Mr. Debridge and prominent civil and railroad engineers with whom he is associated. Such a line, they say, could be built at a cost of \$16,000 a mile. They look upon the proposition as a coming matter for the consideration of the country.

TENNESSEE SENATORS ON GOOD COMMITTEES

WASHINGTON, May 28. (Sp.)—Although both senators from Tennessee are of the minority party, they drew good committee assignments. Senator McKellar is considered well pleased for a comparatively new member. It was thought he would lose his place in the important committee which he had held while the senate was under the control of the Democrats. The assignments of Tennessee senators are: Senator McKellar, civil service and retirement, audit and control, the contingent expenses of the senate, census, education and labor, library, military affairs and postoffice, and post roads; Senator Shields, foreign relations, interstate commerce, judiciary, Mississippi river and tributaries, commerce and Philippine islands. "It is a source of gratification to me," said Senator McKellar, "and I don't believe I would trade assignments with any minority member. I had expected that it would be impossible for me to retain my place on the military affairs committee but the senate committee insisted that because of the interest I had displayed in these matters, I should hold that assignment."

Several ribs are said to have been broken in the perhaps fatal accident, the ends of one or more of them penetrating his lungs. His brother, Charles B.
